

We're pleased to let you know that work has recently started to install live-streaming equipment in the church building . Also public access Wi-Fi in the church and halls.

It will be some time yet before all this is up and running, but we're glad to be underway. Once the project is complete, we'll have the facility to live-stream Sunday services from St Columba's.

We're grateful to the Scottish Government's Adapt and Thrive Programme for awarding us a grant to fund most of this work.

Live-Streaming is coming

To St. Columba's Soon
