

### **Attending St. Columba's and Keeping Safe**

As of Monday 4 April 2022 there is no longer a legal requirement to wear a face covering when attending worship.

However, while we know many will be glad to remove their masks others may still have reservations of freely mixing unmasked with others. We are requesting that while entering or leaving and when moving around you wear a face covering and if you wish, remove it when seated. With that in mind we are asking that we all respect an individual's right to choose whether to continue wearing a face covering or not.

Also a courtesy to others we are asking, were possible and if appropriate, those attending maintain a social distance from others.
